

## DIVINE PLAN

1. Cooperative Barter Exchange affiliate buyer's network, that creates a credit-line to energy exchange your own products and services to a global marketplace of subscribers.
2. To work in the parameters of a self-governance system under universal lore / divine natural law jurisdiction of conscious oneness in common unity of conscious communities.
3. As a conscious community, we all need to simplify life by minimizing the use of natural, capital and human resources by and within a shared community.
4. We encourage a contribution Society. Everyone selects an industrial classification [HERE](#). To place all the skill-sets, talents and experience of individuals into a collective work-force as interdependent cooperative business alliances that are divided into primary industry sectors to rebuild our resources and the economic stability for future sustainable population growth. Each generation equally inherits the previous generation's accumulated wealth of resources and maintains its growth for future generations.
5. Every able person commits 10 Hours a week minimum community service of their chosen profession or best skill-set by experience in a work-from-home style business with minimum achievable targets to contribute to their communal-living, conscious community. This can begin with the sponsorship program as a first step toward success, as an independent within an interdependent collective society.
6. Any Crime, no matter how small that brings harm to another hue-man being and their property, or environment will have their account(s) suspended for remedy or be terminated entirely. We encourage people to stay in their own lane and mind their own business to be respectful to others in the community, unless there is an abuse of community trust.
7. Everyone is responsible and accountable to the areas in which they reside as guardians and protectors of the land we live on. All land is the environment of each hue-man being, so we are required to nurture 1 Acre diameter from our person or residence, whether individually or collectively with other residents as an environmental policy.
8. Each hue-man being has the right to hold others accountable to their responsibility to maintain the local environment they all live within. The contribution towards a Society can be achieved by self-monitoring or on a community level of elected community or village leader management. Standard House Rules will apply but common areas are shared among each community member. This is where the 10 Hours a week community service of each individual is spent.
9. We encourage people to create shared communities. Time Banking or Service Providers exchanging their talents for credits. Putting ideas into action and implementing a working community. Seeking community grants to establish viable community projects that helps the community's growth and development.

10. Manpower Outsourcing and Recruitment offers a work-force of paid volunteers and Cooperative Businesses who utilize the free community service hours as a contribution to society.
11. Aotearoha Kawanatanga – The World of Love Governance establishes non-government Foundations and Philanthropic Humanitarian Community Services for the benefit of each community and a collective working cooperative.
12. We encourage working cooperatives and shared joint ventures and the expression of interest into natural innovative concepts and ideas that are not harmful to the environment.
13. We encourage (non-chemical) natural and organic growth of consumable vegetables and seed-bearing fruits.

This is merely an introduction to a greater plan. Many of you have your own ideas and we encourage your participation and contribution to a better society.
